Addresses- Agricultural Improvement Association Organized.

The same of a first water with the control of the c

reaches \$1,080,000 per annum; he explained the division of this money among the states of the Union and the appropriation for the present year in Ohio, he then pointed out that the two ways Fulton county could receive any part of this appropriation are by having a county agent of by having a county agent of by having a county agent you must pay part of his salary, the United States and Ohio will pay the balance. In order to secure the county agent an Agricultural Improvment Association of at least 300 members must be organized in the county. The Experiment Farm would cost not to axxeed \$20,000 to be paid for by issuance of county bonds the actual cost to the taxpayers would be 75 cents on each \$10,000 valuation for ten years and this would of course be a permanent investment. The cost of maintenance would amount to 5 cents per year on each \$1,000 valuation and the federal and State appropriations would cover the County Agents salary. To summarize Mr. 32-1 WAUSEON FLORAL CO.

Allen's splendid address which we have not space to adequately report the first step toward "Getting the Best out of Fulton County" is the organization of an Agricultural Im-provement Association and the se-curing of a County Agent. Mr. Alien County—Fine Banquet pies to the business men to "get ac ad by Pythian Sisters—Stir-inight like him." He told the story of the awakening of the community spirit and interest in a Missouri town, and urged the business men to make the acquaitance of every man within a radius of seven and a half

Everybody Reads The Home Paper

that it sot been for his courage and hard sense the wrecking crew would have spent one or two million dollars more public money. His experience as a law maker would help him to fit the office of Auditor of State if a republican is to fill this position.

Four times the state emergency board has considered the matter of allowing money to be taken from the state treasury to pay off the state fair shortage. At the last meeting Mr. Reighard demanded a specific itemized accounting of all receipts and disbursements of the fair. It is well known that he is not pleased with the extravagant manner in which the fair was conducted and in all probability will refuse to give the state's bility will refuse to give the state's more frequent and regular, not to mention the Princess Theat regular regular regular regular regular regular regular reg

since their organization last Spring since their organization last Spring and the fine music they have given us during the past season we all want them to keep right on with their good work, but it costs money to "keep on" and so it seems to be up to us, so long as the Band boys are furnishing the time, wind and talent, to furnish the money. Those of us who can dance with a clear conscience can pay our money and dance at the pay our money and dance at the Band Ball and those of us who cannot dance with a clear conscience—or anything else—need not dance, but it will be a difficult matter to retain a clear conscience and not show our appreciation of the band by paying

Hauling Money To Town

Literally speaking, our farmers have been hauling money to market the past few weeks.

Farm products are the basis of business in this great country of ours. They are more important than machines of war or war munitions. They sustain life, instead of wasting life.

Farmers selling produce and stock at this season are cordially invited to bank the proceeds in this strong, accommodating bank and use the Good Bank Service we provide for them.
